

OUR PROGRAM

Our students will discover three sports throughout their schooling: swimming, artistic skating, speed skating, or hockey and gymnastics. We will provide transportation between the school and the three sports facilities.

Students also have the opportunity to converse and write in both languages thanks to our bilingual education program, French and English.

Our program based on the program of the ministry of Education will be enriched with extra-curricular programs including a Sport Option, an entrepreneurship component with visits to studios of local artists, a technological component enhanced with exchanges from experts from l'École de Technologie Supérieure, and finally a co-education component that allows older students to share with the younger ones, their acquired knowledge, through multi-level exchanges and tutoring sessions at the end of each day as well as periods of personal work at school.

Our school will promote the inclusion of children with mild physical disabilities and little people who will be able to achieve their full potential with the help of a qualified professional staff consisting of a remedial educationalist, an occupational therapist and specialized teachers.

About Us

Ecole la Nouvelle Vague is located at 938 Rue Saint-Maurice, in the southwest borough of Montreal, district of Griffintown. It is minutes away from Gym Gadbois, Centre sportif Petite Bourgogne and Arena Ste. Charles. These three facilities will be used as part of our Sports program, which include hockey, skating, swimming and gymnastics.

The location of the building can be found at the intersection of Notre Dame and Peel, with convenient access to buses and metro stations. The school is four blocks away from metro Bonaventure.

Modern and Inclusive

Our bilingual French and English curriculum is based on the Ministry of Education accredited program. This will be enriched by an educational syllabus that provides an experiential learning of many components; an entrepreneurship component which includes visits to local artisan workshops and small businesses; a technology component based on exchanges with professionals from the Ecole de Technologies Supérieur (ETS); and a co-education component allowing older students to mentor and share their skills with the younger students through classroom tutoring at the end of each school school day.

L'École La nouvelle vague bénéficie de trois partenaires locaux majeurs afin d'assurer aux élèves une diversité et une qualité d'activités sportives hors pair.

École la Nouvelle Vague

A BILINGUAL FRENCH AND ENGLISH PRIVATE SCHOOL IN THE HEART OF GRIFFINTOWN, THAT OFFERS OPTIONS IN SPORTS, TECHNOLOGY AND ENTREPRENEURSHIP.

École la Nouvelle Vague will welcome its first students at the beginning of September 2016, for pre-school and all elementary cycles. Our facilities located in a booming sector will be totally renovated and we will focus on our vision of inclusion and openness.
